Parts that keep you moving.
Quality that keeps you coming back.

SHOCK ABSORBERS

ROAD CHOICE® KEEPS WORKING LONG AFTER THE JOB IS DONE

Quality components, precision engineering and a durable, robust design ensure top performance throughout the life of Road Choice heavy-duty shock absorbers, and reduce wear and tear on other costly suspension parts.

* Excluding some or all SA3000 Series

**Including SA5300 and SA5700 Series

¹ Where required.

Note: Features may vary by part number

SHOCK ABSORBERS

Road Choice® shocks are built to be hard working and durable, with features that stand up to extreme conditions.

Whatever you want...we've got you covered:

- | | | |
|--------------------------------------|---------------------------------|---------------------------|
| ✓ Coverage | ✓ 360° Arc-welded End Mounts | ✓ Heavy-duty Applications |
| ✓ Durability | ✓ Hydraulic Stop | ✓ Horizontal Applications |
| ✓ Super-finished Chromed Piston Rods | ✓ Self-compensating Piston Seal | ✓ Cab Shocks |

Heavy-duty durability - through and through

From the superior tensile strength of every Road Choice shock to the forged, solid steel, 360° arc-welded eye ring end mounts, durability is built into every Road Choice shock.

Road Choice shocks feature a uniquely robust hydraulic stop design – one that helps prevent impact damage to the truck and shock by creating a hydraulic cushion. It also provides best-in-class energy absorption to protect today's low-friction suspension components, including the axles, air springs, shock mounts and the shocks themselves.

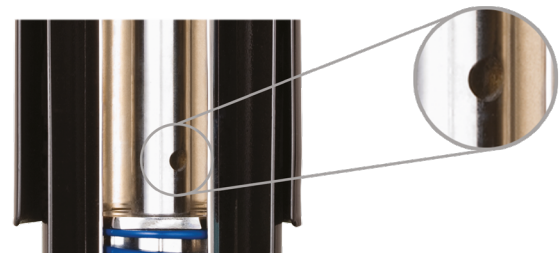

Road Choice shocks' pressurized floating piston seal is a design that self-compensates for wear. This results in less fade and more consistent performance for ongoing durability over the life of the shock.

Road Choice Solid Steel Eye Ring

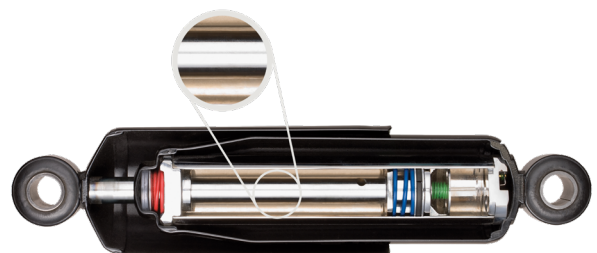

Road Choice 360° Arc-Welded End Mount

Quality - Road Choice super-finished chromed rods are the gold standard

All chromed rods are not created equal and the finish matters. Every Road Choice shock has a super-finished chromed piston rod because it:

- Prevents corrosion
- Ensures proper seal lubrication
- Provides a more consistent wear surface
- Extends product life

SHOCK ABSORBER CROSS-REFERENCE
